MUHAMMAD HAMZA

Full-Stack Software Engineer · React Native · Angular · .NET

Karachi · +92 332 2944494 · hamzaowais31@gmail.com · linkedin.com/in/muhammad-hamza-27b84724a · github.com/hamzaowaisog · portfolio-website-theta-inky-23.vercel.app

Full-stack engineer who progressed from intern to Software Engineer at Folio3, shipping production React Native, Angular and ASP.NET Core systems for 7 clients in healthcare, agritech, land sales and livestock media. Mentors interns, reviews teammates' code, and takes hard problems from prototype to production.

CORE STACK React Native · TypeScript · Angular · Next.js · ASP.NET Core · C# · PostgreSQL · LLM / RAG

EXPERIENCE

Software Engineer, Folio3 · Karachi — Jun 2025 – Present

- **Co-built an LLM pipeline** that turns plain-English change requests into tested pull requests on .NET + PostgreSQL codebases; top contributor with 144 commits and 83 test files in 3 weeks. — AI Factory, internal R&D
- **Took in-book PDF search to production** with a custom iTextSharp layout parser that rebuilds tables and keeps highlights accurate at any zoom, indexed in Apache Solr. — Angus Media
- **Ended all-or-nothing lot imports** by rebuilding upload as multi-file with per-file partial success; shipped 7 Angular + ASP.NET Web API features. — Angus Media
- **Closed a sold-lot data exposure** across the .NET API and Frappe/ERPNext with a documented 403 contract and .NET regression tests. — LandTeller
- **Developed fixes for 3 critical tenant-isolation findings** from a 33-finding security review; built Frappe Insights sales dashboards covered by 18 automated tests. — LandTeller
- **Own releases of a production iOS/Android app** with an offline-first content engine (SQLite, MMKV), shipping through v1.4 via Fastlane across 4 environments. — MyEndo, healthcare
- **Traced a staging outage to its root cause,** a failed ZooKeeper container behind every analytics 502; wrote the recovery runbook and encrypted user PII in PostHog. — MyEndo
- **Eliminated iPad crashes** by tracing a ~900MB memory spike to full-resolution image decoding and switching to native downsampling. — FEW Center
- **Authored the architecture RFCs** for a Next.js + React Native Turborepo monorepo and benchmarked Socket.IO, MQTT and WebRTC for protocol selection. — FEW Center
- **Upgraded an offline-first field app to React Native 0.81 and React 19** without a rewrite. — FarmDocs
- **Mentored interns and reviewed teammates' pull requests** across client projects.

Earlier at Folio3: Trainee Software Engineer (Feb – Jun 2025), built the RAG ingestion CLI for a FastAPI Sales Bot · App Developer Intern (Jun – Aug 2024), built a YOLOv8 license-plate detection pipeline.

PROJECTS · IN PRODUCTION

Malani Wholesale Management System · NestJS, Next.js, Prisma, PostgreSQL — Aug – Sep 2026
Built solo in 5 weeks: 119 REST endpoints, 31 data models, 44 pages and 733 automated tests.

HamzaTex Operations Suite · React Native, ASP.NET Core (.NET 10), EF Core — Nov 2025 – Present
Built solo: textile inventory and accounting app with 159 REST endpoints and ~57 screens; a pre-release security audit closed 7 issues, including cross-user data access.

SKILLS

Languages: TypeScript, C#, JavaScript, Python, SQL, Java
Mobile: React Native, iOS, Android, SQLite, MMKV, Firebase Cloud Messaging, PostHog, Fastlane, TestFlight
Web: Angular, React, Next.js, Redux Toolkit, Zustand, TanStack Query, Orval, Tailwind CSS
Backend: ASP.NET Core, Entity Framework Core, Hangfire, NestJS, Prisma, FastAPI, Frappe/ERPNext, JWT
Data and AI: SQL Server, PostgreSQL, Apache Solr, Pinecone, iTextSharp, LangChain, RAG, LLM Agents, YOLOv8
Tools: Git, Docker, Turborepo, AWS S3, Swagger/OpenAPI, Jira, Bitbucket

EDUCATION AND CERTIFICATION

BS Software Engineering, FAST-NUCES, Karachi · GPA 3.85 / 4.0 — Jun 2025
Google Cloud Certified – Generative AI Leader — 2026
